TAKE CONTROL
A full range of advanced control systems and environmental controls are available. Easy to program and easy to use.

FULL LIGHTING PACKAGES
Been out having too much fun and it’s getting late? Put your lights on. Fitted on rubber brackets.

UP CLOSE AND PERSONAL
Side transfers aren’t the only reason you need to flip your armrest out of the way.

“This chair has met and exceeded my expectations. I’ve gone many miles and hours … in the almost four years I’ve had it. It has never broken down on me or let me down. It’s always got me home, that’s important. I have confidence when I leave on my daily excursions.”

**Attention to detail**
Working together, we can figure out how to make your wheelchair uniquely yours. We know the small touches make a big difference.

**Built to last**
We never compromise on quality. With your wheelchair as your mobility, reliability is paramount. We’d much rather spend time improving our products than repairing them.

**Engineered to the last bolt**
If we think we can make it better, we will. Our in house engineering team are hands on, working side by side with customers and therapists. The entire Magic team work continuously on how we can improve the experience from choosing a Magic Mobility wheelchair to its performance in the places you want to go.

**Proudly Australian designed and made**
We love that our product is made in Australia. We love meeting our customers, hearing their ever changing needs and taking it back to the drawing board.
